PROFESSIONAL EXPERIENCE

Abhiwan Technology Pvt. Ltd. | Project Manager

March 2024 - Present

- ❖ Lead and Managed a team of developers and designers to successfully deliver 15+ projects, including web apps and games like: [ActiveShooter](#) VR simulation game for Abu Dhabi Government (Unreal Engine), [RoyalChess.io](#) Interactive chess game with power-ups (MERN), [BetByHeart](#) Real-time betting platform (MERN), [Unbounded.Racing](#) Blockchain & NFT-based racing game (Cardano), [BarrelBlast.app](#) Web arcade game (Phaser.js), [NachosNFT](#) A web platform for upgradable NFTs (React).
- ❖ Oversaw project lifecycles from planning to deployment, 100% ensuring on-time and on-budget executions.
- ❖ Communicated technical requirements effectively with stakeholders and led the creation of detailed API documentation and database schema designs, contributing to 95% client satisfaction rate and improved cross-team clarity.
- ❖ Contributed to increase user engagement by 30% on Cardano blockchain based apps & NFT games. (via Google Analytics)
- ❖ Delivered comprehensive client solutions across Risk Management and QA domains, aligning scope, resources, and timelines with Agile/Scrum methodologies, reducing QA times by 50%. All Projects: <https://tusharkaw.artstation.com/projects>

Bharti Airtel | Project Manager Intern

Feb 2023 - June 2023

- ❖ Deployed MPLS & SD-WAN for B2B enterprise clients, including IOCL and Maruti Suzuki.
- ❖ Coordinated with network planning, security, and CX teams to ensure seamless deployment accelerating project timelines by 20%.
- ❖ Reduced service deployment time by 20% through process automation and tool optimizations.
- ❖ Implemented client feedback loops using daily logs and reporting systems, enhancing SLA adherence by 25%.
- ❖ Integrated productivity tools like Jira into project workflows, leading to a 25% increase in team efficiency.

Excitel Broadbands | Network Engineer Intern

Aug 2022 - Sep 2022

- ❖ Designed and optimized PAN & LAN infrastructures, contributing to a 20% improvement in network stability of internal systems.
- ❖ Assisted in planning Adhoc networks and enhanced router configurations, resulting in 25% better coverage and reduced latency.
- ❖ Supported network topology analysis and optimization, helping improve bandwidth distribution efficiency by 25%.

PROJECTS

Bet By Heart | React.js & Node.js

Live Link: <http://beta.betbyheart.in/> (note: SSL not included)

- Orchestrated the full Project lifecycle of an interactive online betting platform featuring games like: Blackjack, Teen Patti, Chess, Ludo, Derby, etc. Integrated a referral and rewards system to boost user acquisition and engagement.
- Led a cross-functional team of 5 (3 developers, 1 UI/UX designer, 1 SEO specialist), ensuring timely rollout, cohesive design, and optimized performance. Tech Stack: React, Node.js, MongoDB & Digital Ocean.

Royal Chess | MERN & React Native (mobile app)

Live Link: <https://beta.royalchessclub.io/>

- Led the development and deployment of Royal Chess, a live interactive online chess game with power-ups, transforming traditional mechanics into a gamified experience resulting in over 500+ active users within the first month.
- Created sprint plans, feature lists, API documentation, and schema design, enhancing development efficiency by 50%.

Private Chat Room | React.js & Node.js

GitHub: <https://github.com/TusharKaw/Personal-Chatroom>

- Developed a personal Discord like chatroom using the MERN stack, achieving 100% encrypted communication on TOR network.
- Implemented Socket.IO for real-time messaging and onion routing principles, reducing message latency by 50%.

Find Meet Chat | React.js & Node.js

GitHub: https://github.com/TusharKaw/Find-Meet-Chat_v2

- Led the development of MERN based dating platform with real-time chat, matchmaking logic, and 100% sprint goal completion.
- Managed sprints, API documentation, and backend architecture, resulting in 30% faster development cycles & future scalability.

EDUCATION

Deenbandhu Chhotu Ram University of Science & Technology

Aug 2019 - Aug 2023

B.TECH | Electronics and Communication Engineering

GPA: 7.75

SKILLS

- **Management Skills** - Agile | Scrum Master | Project Lifecycle Management | Time Management | Resource Management | Strategic Planning | Stakeholder Communication | API Documentation | Schema Designing | Wireframing | Quality Assurance
- **Programming & Development** - Node.js | React | JavaScript | HTML5 | CSS3 | C++ | MongoDB | REST APIs
- **Frameworks & Tools** - Jira | Trello | React.js | Node.js | Express.js | Figma | Git/GitHub | Postman | Swagger | VS Code | Excel | PowerPoint | Unity | Unreal Engine 5

ACHIEVEMENTS

- 1)) Completed Alison's "Agile Project Management" certification, and applied them to 5+ projects. [Certificate](#)
- 2)) Managed complete project lifecycles, from requirement gathering and sprint planning to deployment and post-launch support, leading with minimum teams of 3 to maximum teams of 15 people.
- 3)) Led a team of 20+ volunteers as Management Staff Coordinator at Technova University Fest.
- 4)) Completed Udemy's "Internet & Web Development" certification, which made me able to lead more than 10 IT projects.
