PROFESSIONAL EXPERIENCE

Delhi Vidhan Sabha | National Informatics Center Service Inc. (NIC) | Nippon Data | Operation Manager *July 2025 - Present*

- Led the end-to-end implementation of the **National e-Vidhan Application** (NeVA) for the Delhi Legislative Assembly, including the critical Chief Minister's and MLA's e-book module, achieving paperless legislature and digital transformation from Third Session till Fifth Session of Eighth Legislative Assembly, as well as All India Speaker Conference (AISC 2025) of Delhi Legislation.
- Streamlined legislative workflows through paperless automation and real-time systems, including the State Level Project Monitoring (SPM) initiative I was involved with, reducing session preparation time by 80% and significantly improving operational efficiency.
- Managed diverse cross-functional stakeholders (Government Officials, NIC, Ministry of Parliamentary Affairs) to deliver secure, compliant, and scalable e-Governance solutions aligned with MeitY and NIC standards.
- Directed the development and deployment of two additional applications: Vidhan Saathi (an AI legislative query assistant for MLAs) and an internal app for reporting Delhi Legislative Assembly's branch and committee operational issues.

InfoBlizz Pvt. Ltd. | Product Manager *April 2026 - September 2026*

- Co-founded and Managed InfoBlizz Pvt. Ltd., leading product strategy, technical architecture, and go-to-market execution for several products ranging from SaaS to AI, prominent apps - YourCrush.ai, Prodevtools, CreateMaps, etc.
- Launched the multi-tenant SaaS platform Azuqe, a marketing full stack AI platform featuring SEO automation, AI-powered marketing, workflow automation, and analytics using modern full-stack technologies and LLM integrations.

Abhiwan Technology Pvt. Ltd. | Project Manager *March 2024 - July 2025*

- Successfully led Agile teams to deliver 15+ projects, including web apps & games like: ActiveShooter - VR simulation game for Abu Dhabi Government, RoyalChess.io - Interactive chess game with power-ups, BetByHeart - Real-time betting platform, Unbounded.Racing - Blockchain & NFT-based racing game, NachosNFT - A web Game with upgradable NFTs, etc.
- Applied Agile/Scrum methodologies from planning and daily stand-ups to consistent on-time deliveries and improvements. Managing the full SDLC from planning to deployment, ensuring 100% on-time and on-budget executions.
- Oversaw projects using Scrum practices facilitating Sprint reviews to improve team velocity and client satisfaction up to 95%+.
- Created project documentations (API docs, user stories, DB schemas, wireframes), improving team alignment & reducing rework.
- Optimized QA workflows & maintained strong stakeholder communications, reducing iterations by 50% and driving 30% boost in user engagement on various projects (sourcing from google analytics). All Projects: *https://tusharkaw.artstation.com/projects*

Bharti Airtel | Project Manager Intern *Feb 2023 - June 2023*

- Supported enterprise delivery of MPLS and SD-WAN solutions for large-scale clients including IOCL and Maruti Suzuki.
- Coordinated with network planning, security, and CX teams to ensure seamless deployment accelerating project timelines by 20%.
- Implemented process automation and reporting tools, reducing manual work and improving service rollout times by 20%.
- Conducted daily scrum-like check-ins and created structured feedback loops, improving SLA adherence by 25%.
- Integrated Jira and Confluence into workflows, increasing transparency and boosting team efficiency by 25%.

PROJECTS

Azuqe.com | Next.js, Node.js, Claude *Live Link: https://azuqe.com/*

Developed a multi-tenant AI-powered marketing SaaS platform combining AI agents, automation, SEO, content creation, campaigns, and analytics to streamline workflows and scale business growth.
